

CNG NYC 2026 sponsorship prospectus

24 September 2026 | Cooper Union, New York City | cloudnativegeo.org

About Cloud-Native Geospatial Forum (CNG)

CNG convenes events, creates content, and provides educational opportunities for data practitioners working to make geospatial data easier to access and use. CNG is an initiative of Radiant Earth, a 501(c)(3) nonprofit.

About CNG NYC

CNG NYC is a one-day gathering of geospatial data practitioners at The Cooper Union in New York City. The event features 15–20 minute talks from practitioners sharing concrete, experience-driven presentations, along with lightning talks, panel discussions, and networking. The day closes with an evening reception on the Cooper Union rooftop terrace.

CNG NYC is the third CNG event of 2026 and takes place during NYC Climate Week, bringing the community together at the intersection of geospatial innovation, climate tech, and open data.

CNG NYC is one stop on the 2026 CNG series, which also includes London, Japan, CNG Forum 2026 (Snowbird, Utah), and Zürich.

Sponsorship Opportunities

CNG NYC Reception host: \$5,000

Limited to one sponsor.

The Reception Host hosts the evening networking reception on the Cooper Union rooftop terrace, the social highlight of the event. This tier includes:

- “Reception hosted by [Your Organization]” branding on all reception signage and communications
- A dedicated, standalone Sponsor Spotlight feature post on CNG LinkedIn
- Logo featured on all event materials (website, signage, slides, emails)
- Organization listed on the registration page and agenda
- Prominent callout on CNG social media channels
- Mentioned in all event communications and the CNG newsletter

CNG NYC Event sponsor: \$2,000

Unlimited availability.

- Logo featured on all CNG NYC event materials (website, signage, slides, emails)
- Organization listed on the registration page and agenda
- Callout on CNG social media channels
- Mentioned in CNG NYC event communications

CNG 2026 community partner: \$5,000

CNG Community Partners receive visibility across the remaining 2026 CNG events (NYC, CNG Forum 2026 in Snowbird, Utah, and Zürich) under a single agreement. For events that have already taken place, your logo and name will be added to any followup materials, including YouTube video descriptions.

- Logo on all event materials at NYC, CNG Forum, and Zürich
- Organization listed on every event registration page and agenda
- Logo and name added to YouTube video descriptions for any 2026 CNG events that have already taken place
- Callouts on CNG social media channels at each event
- Mentioned in all event communications and the CNG newsletter year-round

Community Partnership can be paired with a CNG NYC sponsorship for deeper visibility at this stop.

CNG membership renewal + community partner: \$8,000

Renew your CNG Commercial Membership and add Community Partnership for the remaining 2026 events in one package.

- All Community Partner benefits above
- CNG Commercial Membership renewal for one year from your current expiration date

Why sponsor CNG NYC?

CNG events attract a focused, influential audience of geospatial practitioners, data engineers, researchers, and decision-makers from both the public and private sectors. New York City brings an especially rich cross-section of that community, spanning climate tech, humanitarian data, academia, media, and enterprise, in an intimate, high-quality setting that encourages real conversation and collaboration.

Sponsoring CNG NYC puts your organization in front of the people building the future of geospatial data infrastructure: the practitioners, engineers, and decision-makers shaping open formats, cloud infrastructure, and the AI workflows built on top of them.
